To

All the contractors and prospective bidders
working with HPPTCL.

Subject: Vendor Meet for Latest industry practices and current technologies.

Dear Sir,

HPPTCL is in the process of floating tenders for 132 kV and above Transmission Lines and substations as per the requirement of the transmission capacity in the state of Himachal Pradesh. Some of these upcoming projects are being funded by the World Bank and others under the GEC-II Scheme of the MNRE, Gol.

HPPTCL is also considering implementation of Process Bus based Digital Substation in one of its upcoming projects. The same is still a new concept for most utilities in India and has been implemented by just a few. Hence, collaboration between the utilities and industry is a must for ubiquitous implementation of these new technologies.

In view of our long-standing partnership with our industry partners and contractors who have been pivotal in the implementation of the transmission infrastructure built by HPPTCL in the state, your valued inputs regarding latest industry practices and current technologies as well as market trends would be instrumental in the smooth implementation of the prepared tender document.

As such, HPPTCL intends to conduct a Vendor Meet on 6th April, 2024 (11:00 A.M.) at Hotel Holiday Home, Circular Road, Bemloi, Shimla, Himachal Pradesh 171001 to be apprised with the latest industry practices and current technologies for Transmission Assets. You are therefore requested to attend the same.

Confirmation for participation along with the number of participants be intimated on or before 26.03.2024 up to 5:00 P.M. so that the necessary arrangements may be made accordingly.

Signed by

Vinod Kumar
